Re: Water/Sewer rate increase
Docket No: 2004-353-ws

To Whom It May Concern,

As indicated, this communication is in regards to the proposed water and sewer rate increase for residents at Lake Wylie Mobile Home Community.

Many of our residents are retired living on a fixed income. Some are middle aged just managing to pay the bills. Others are still raising families! Mr. Malpeli has requested a rate increase that effectively triples our cost from \$280 per year to \$880 per year. While we do not object to a reasonable increase, we hope you will agree this is uncalled for and excessive.

We respectfully request that you consider our objection to this filing. Thank you very much for your concern and attention.

Sincerely,

Doug Zaferatos
